

# Vaughn McManamna

vaughnmcmamanma03@gmail.com (236) 380-3921 Portfolio LinkedIn — Victoria, BC

## Education

**Bachelor of Computer Science**, University of Victoria Sep 2021 – Present

Relevant Coursework: Algorithms & Data Structures, Computer Networking, Database Systems, Data Mining, Operating Systems, AI, Probability & Statistics, Linear/Matrix Algebra, Calculus I-IV

## Skills & Tools

**Languages:** Python, JavaScript, Haskell, SQL, C, Rust (learning)

**Frameworks & Libraries:** scikit-learn, D3.js, Plotly.js, pandas, NumPy, Figma, React

**Concepts:** Machine Learning, Data Visualization, Functional Programming, Full-Stack Development

## Projects

**Call of Duty Statistics Analyzer & Predictor**

May 2025 – Jan 2026

*Python, JavaScript, D3.js, Plotly.js, scikit-learn*

- Built a full-stack data pipeline combining Python ML models with interactive D3.js/Plotly visualizations
- Developed a Decision Tree classifier (73.9% accuracy) identifying key performance indicators
- Automated processing of 1000+ raw match records with feature extraction and cleaning
- Designed modular architecture separating data ingestion, processing, visualization, and prediction
- Created interactive charts with filtering, pan/zoom, and mobile-first layouts

**ML / Automation Portfolio**

2024 – 2025

*Python, JavaScript, scikit-learn, D3.js, Plotly.js*

- Developed interactive portfolio demonstrating ML pipelines, predictive models, and data visualization
- Built end-to-end demos illustrating classification, regression, and automated data processing
- Emphasized modular, reusable components for experimentation and demonstration

**Deal or No Deal – NBA Edition**

Jan 2026

*JavaScript, Vite, Tailwind CSS*

- Implemented dynamic game logic and state automation for NBA-themed Deal or No Deal
- Demonstrates problem-solving, modular code structure, and front-end interactivity

**UVic Gym App Redesign**

Dec 2024

*Figma, Draw.io, Systems Analysis*

- Led prototyping and workflow optimization for UVic Gym booking system
- Mapped user interactions and system flows to improve efficiency and reliability

## Experience

**Barb's Fish and Chips** — Dishwasher / Front of Staff / Cook

May 2025 – Nov 2025

Victoria, BC

- Managed multiple kitchen and front-of-house tasks efficiently during busy shifts
- Maintained high standards of cleanliness, organization, and workflow
- Assisted customers, resolving issues quickly and maintaining smooth service

**Vancouver Island Brewing** — Warehouse & Delivery Assistant

May 2024 – Aug 2024

Victoria, BC

- Streamlined shipment organization and truck loading to improve delivery efficiency
- Coordinated logistics under tight schedules, ensuring timely deliveries
- Communicated with customers to resolve conflicts and support operations
